

How to buy it with ITEX

- Go the web site WWW.ITEX.com
- Click Sign in
- Enter your username and password, remember that these will be all one word and in lowercase.
- You should see your logo and contact information in the center of the page.
- Off to the left you will see the heading ITEX Marketplace.
- You will see [Listings](#), click on that and you will see [Featured Listings](#) and [Recent Listings](#).
- If you find a listing you want to buy click the [Buy it with ITEX](#) button. You should see a ck with your information. If the information is correct press [Buy it](#)
- I recommend sending an e-mail with your shipping info immediately after sending the ck so that they will have all the info to ship out the item right away.
